

# 2023 Fall Water Main Flushing Schedule

## October 10 - October 26

### Notice to City of Cape May Water Customers

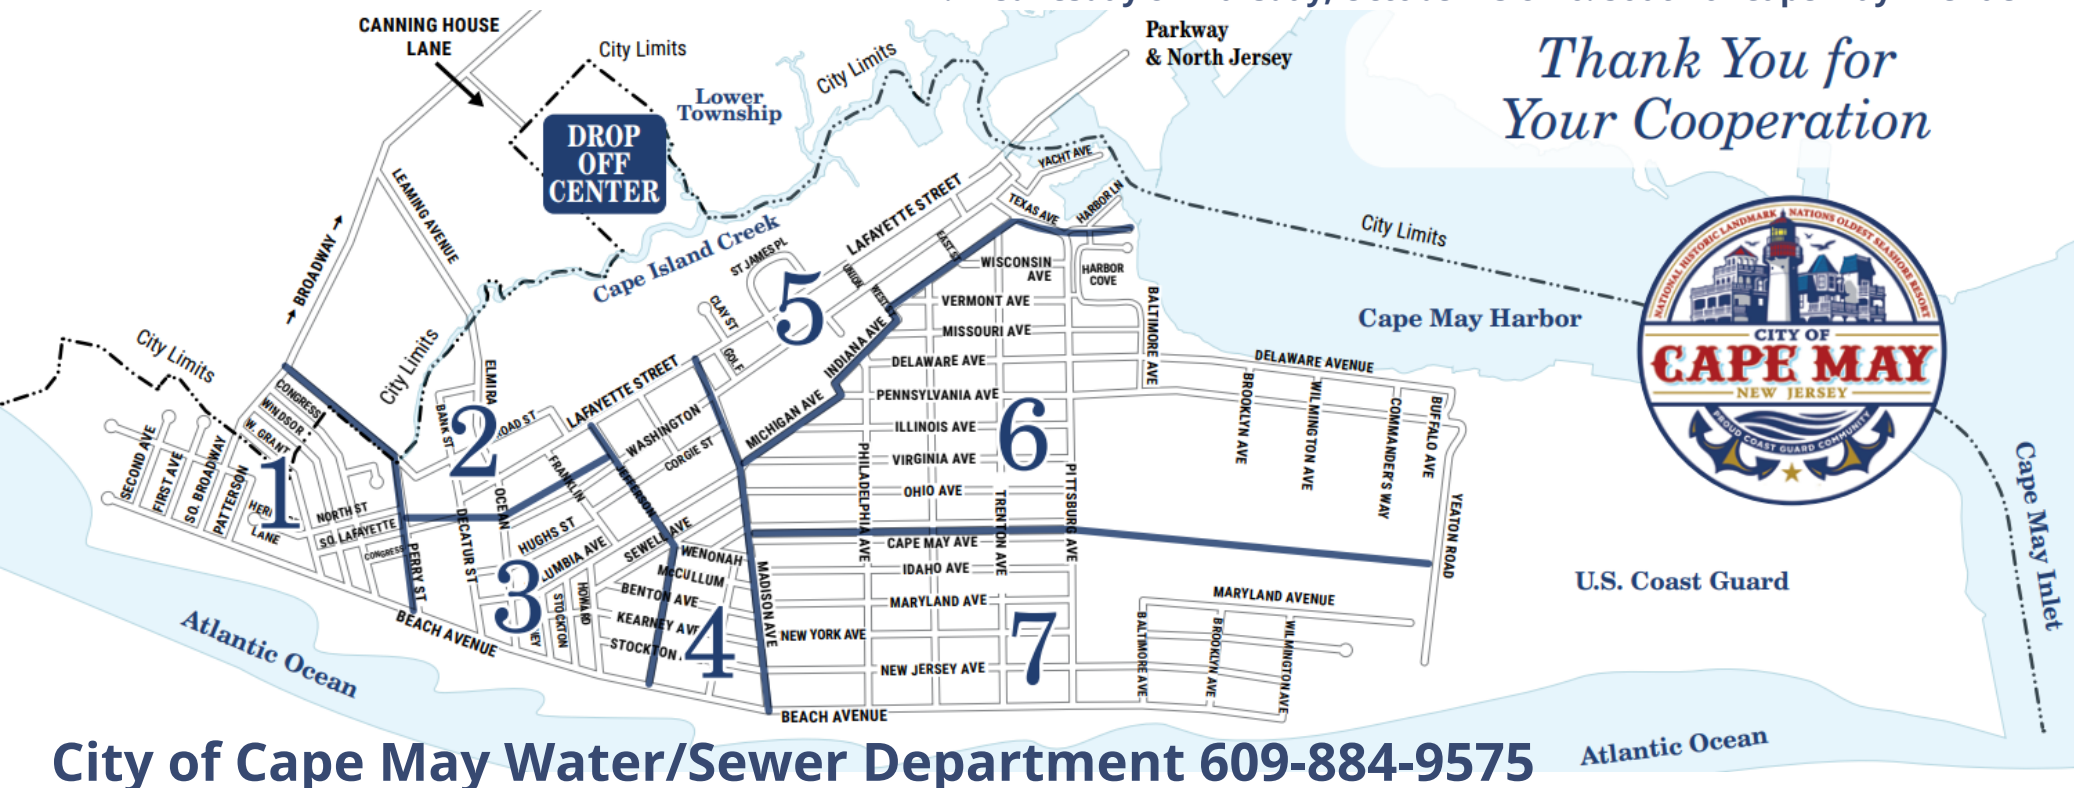

While flushing does not cut off the supply of water, it does “stir up” sediment. If discolored water occurs, run the **cold water** for a few minutes until it clears so the sediment can work its way through the pipes. The discoloration does not affect the water quality. Please check for discolored water before doing laundry. Wait until the water runs clear at the tap first. If water pressure seems low after flushing in your area, check the faucet screens for trapped particles.

1. Tuesday & Wednesday, October 10 & 11: West of Perry St.
2. Thursday, October 12: North of Mall: Perry to Jefferson
