

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring and Reporting Requirements Not Met for City of Cape May.

Our water system violated drinking water requirements over the past year. Even though it is not an emergency, as our customers, you have a right to know what happened and what we did to correct the situation.

For more information, please contact Rob Cummiskey at 609-884-9576 or 830 Canning House Lane, Cape May, NJ 08204.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether our drinking water meets health standards. During 1/1/2025 – 7/1/2025 we completed all monitoring and testing; however, the results were submitted to the state late for the annual CCR report.

The table below lists the contaminant(s) we did not properly monitor and report during the last year, how often and when we are supposed to sample, how many samples we are required to collect, how many samples we took, and if applicable, the date on which follow-up samples were (or will be) taken.

Analyte	Required sampling frequency or sampling period	Number of samples required	Number of samples collected	When samples were or will be taken

What should I do?

There is nothing you need to do. This was a procedural delay in filing paperwork, not a water quality issue.

However, if you have specific health concerns, a severely compromised immune system, have an infant, are pregnant, or are elderly, you may be at higher risk than other individuals and should seek advice from your health care providers about drinking this water.

What is being done?

Our system was inadvertently late in submitting our annual Consumer Confidence Report to the New Jersey Department of Environmental Protection by the July 1, 2025 deadline. The CCR provides essential information about the quality of your drinking water. This was a reporting violation and not related to the actual quality of your drinking water. Upon notification of the violation, we worked to

complete the necessary filing and certification requirements. We returned to compliance on 10/31/2025.

For more information, please contact Rob Cummiskey at 609-884-9576.

Information on our water system, including drinking water results, may be found on the New Jersey Department of Environmental Protection's Drinking Water Viewer website available at

<https://waterviewer.nj.gov/>.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by City of Cape May Water Utility, Water System ID#: NJ0502001.

Date distributed: 10/31/2025.
